

A night scene of a construction site. In the foreground, a wet, reflective surface shows the lights from the scene. To the left, three workers in high-visibility gear and hard hats stand near a construction vehicle. In the center, a large, illuminated tent is set up. The background features city lights and a clear night sky filled with stars and the Milky Way. Two large, bright yellow diagonal shapes cut across the image, one from the top left and another from the middle right, meeting at a point in the lower right.

High Powered Lithium Ion Rechargeable Work Lights with USB

litePRO rechargeable work lights provides a range of cost effective high quality portable lighting solutions using the latest state of the art lithium-ion battery technology which lasts up to 5 times longer than any standard battery. Equipped with quality LEDs, litePRO offers bright high lumen output with 3 different power/light modes.

Additional feature includes 2.1 amp USB Output allowing for quick emergency charging of all smart devices. litePRO LED portable lighting provides ultra-light weight, compact and high powered products making them an essential part

of any tool or camping kit. This range is also ideal for portable back-up lighting.

Key features include:

- Durable PC casings
- High powered rechargeable lithium-ion batteries
- 2.1 amp USB Output
- 3 Light mode settings
- Magnetic Base
- High Powered Lumen Output

Litepro products have been manufactured and tested to specifications for international distribution. All LITEPRO products have a limited warranty of 1 year from the date of purchase against defects in material and manufacturer workmanship. Damage or injury due to the incorrect application of the product is not covered under warranty. For all warranty related claims or queries please contact GENTECH on +27 11 466 6790 / 793.
